

## Introduction

### Adventure Refined

The 2016 Sorento is all-new from the ground up. Available in 5-passenger and 7-passenger iterations, it rides on a longer chassis that offers more space for passengers and cargo and features a uniquely engineered body that combines various high-tensile strength steel alloys. This helps provide crash protection, better driving dynamics and, along with a bevy of sound-deadening measures, is the foundation for a quieter ride.

Under the hood, a 2.0L Turbo engine joins the already strong powertrain lineup that includes a retuned 2.4L engine and the proven 3.3L engine. All-wheel drive remains a mainstay, available on all trims except the base. Inside, an exquisite level of detail, fine materials, and available premium features such as Nappa leather, Infinity® audio with Clari-Fi™ sound-restoration technology, Advanced Smart Cruise Control (ASCC)\* and more, all work together to deliver a class-up feel.

The new Sorento offers just the right combination of sophistication and capability to take you to your next adventure in style. The Sorento is its own adventure. It's Adventure Refined.
