

SORENTO

Introduction

2017 Sorento SX Limited AWD

Adventure Refined

The Sorento was all-new from the ground up last year. For 2017, Sorento 5-passenger and 7-passenger models offer newly available features including the convenience of Android Auto™* and Apple CarPlay®, high-tech advancements like Autonomous Emergency Braking* and Dynamic Bending Lights, and the sporty driving pleasure of paddle shifters. New option packages accelerate Sorento's outstanding value.

Under the hood, Sorento offers a choice of three powerful and responsive engines: a 2.0-liter Turbo, plus normally aspirated 2.4-liter 4-cylinder and 3.3-liter V6. All-wheel drive remains a mainstay, available on all trims except the base. Inside, an exquisite level of detail, fine materials, and available premium features such as Nappa leather trim, Infinity®* audio with Clari-Fi™* sound-restoration technology, Advanced Smart Cruise Control (ASCC)* and more, all work together to deliver a class-up feel.

The Sorento offers just the right combination of sophistication and capability to take you to your next adventure in style. The Sorento is its own adventure. It's Adventure Refined.
